Don't miss this exciting opportunity to receive training in this award winning, interdisciplinary nationally recognized program! It is one of the most widely-used conservation and environmental education programs among educators of students in kindergarten through high school. The program emphasizes terrestrial and aquatic wildlife because of their intrinsic, ecological value, as well as their role in teaching how ecosystems function. Through the use of balanced curriculum materials and professional training workshops, Project WILD accomplishes its goal of developing awareness, knowledge, skills and commitment.

Workshop participants will receive a copy of the guide and a certificate of completion. This hands-on workshop has applications for school teachers, scout leaders, camp counselors, nature center staff, home educators, after care teachers, etc.

Project WILD is sponsored in the state by  
the Massachusetts Division of Fisheries & Wildlife
